To Whom It May Concern:

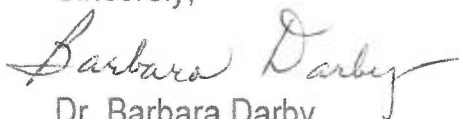

Over the time that Mrs. Davidson has represented me, I have found her to be knowledgeable, responsive, resourceful, compassionate and one who has practiced with great professional integrity.

A knowledgeable and very skillful legal professional in the field of Guardianships, Wills and Trusts and Elder Law, Miriam has represented my petition for guardianship to the court in a consistently excellent manner throughout. She advised me appropriately about my case, my options, possible outcomes and costs. She was in frequent communication, keeping me advised of the progress of the case and actions taken on my behalf. She made clear recommendations but, always respected my right to choose not to follow her recommendations--I was treated as a partner, not just a client in the process.

Miriam seemed to have a vast array of resources she could tap into in support of the case. Whatever type of services were needed, she could immediately identify someone or some agency that could provide the services. Her resourcefulness along with her ability to conduct research and to think in very critical ways proved to be both beneficial and impressive. I am confident that the characteristics enumerated in this letter were instrumental in obtaining a positive outcome in my case and our success in obtaining guardianship of my uncle.

I have the utmost confidence in and respect for Mrs. Davidson's professional integrity and feel that I was excellently represented. I would recommend her highly to anyone needing an attorney and will personally seek her services and counsel, if needed, in other situations.

Sincerely,

A handwritten signature in cursive script that reads "Barbara Darby".
